

WEB BOOKING ENGINE

Innovative Technology for the Hospitality Industry

Skyware's integrated Web booking engine is an extension of your **Customer Relationship Management** strategies and your **e-marketing initiatives**.

A **completely customized online booking center** includes packages support, commission-free booking, and rule based yield management seamlessly connected to the entire Skyware suite of application modules.

FEATURES

- ◆ Real-time management of your website at the property level for immediate online, commission-free reservations.
- ◆ Fully flexible integrated yield management.
- ◆ Multiple language options.
- ◆ Customized look and feel to mimic your hotel's website.
- ◆ Supports user-defined packages and group bookings.
- ◆ Includes Spa activities and incidentals.
